## Experience

### Veritas Technologies LLC, Checkup Exec for Backup Exec

Data Analyst | Team Lead

January 2017 – August 2017

- Perform data analysis on customer telemetry data to generate a breakdown of how Backup Exec is currently deployed.
- Generate intuitive reporting on the current status of backup servers. Recommend action in the case of space issues, frequently failing jobs, or configuration issues.

## Projects

### Processes of Object Oriented Design, Sticker Shock

Frontend/Backend Developer

January 2017 – May 2017

- Website is a clothing exchange service running on LAMP stack, implemented in MVC architecture.
- Expanded an already implemented Model-view-controller to support review creation and display. Also assisted in testing the system and product showcase.

## Involvement

### TechKnights

January 2016 – May 2017

- Weekly technology workshops on new or exciting tools for development.
- Examples: Android app development, using Bash, Functional programming for mathematical problems.
